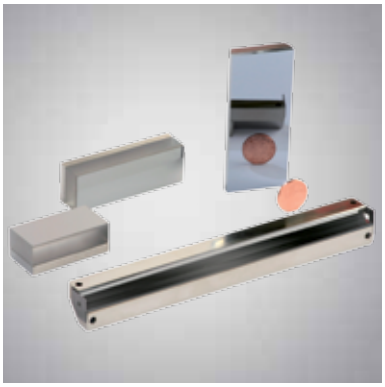
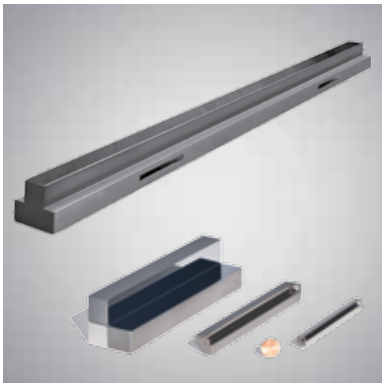
incoatec

INCOATEC
innovative coating technologies

Your Partner for X-ray Optics & Microfocus Sources





Montel optics

Göbel mirrors **X-ray Multilayer**

Synchrotron optics

Multilayer up to 50 cm

Microfocus Sources

Scatter-free pinholes

SCATEX

XRD High resolution

High pressure

Charge density

SAXS

PX/MX

IμS High Brilliance

for Cu, Mo, Ag, Cr and Co

Incoatec GmbH · Max Planck-Straße 2 · 21502 Geesthacht · info@incoatec.de · www.incoatec.de

INCOATEC
innovative coating technologies

Incoatec History

1995 Beginning of multilayer X-ray optics development at GKSS Research Centre

1999 First prototypes for XRF analyzers for B and C are launched

2001 2-dim beam shaping Montel Optics are introduced

2002 Foundation of Incoatec as Incorporation with Bruker AXS as a major partner
Moving from GKSS into the GITZ (Geesthachter Innovation and Technology Center)

2003 Incoatec receives the Technology Award of Schleswig-Holstein for the development of XRF analyzer crystals

2004 Revenue exceeds 1 mill Euro

2006 Incoatec launches the Incoatec Microfocus Source IμS-Cu for biological crystallography and small-angle scattering
Moving into new premises

2007 More than 20 employees
Incoatec wins the Schleswig-Holstein economy award for family-friendly human-resource development
1st Cu-IμS installed at the Center for Structural Biology, Kiel, Germany
Mo-IμS developed for chemical crystallography

2008 Revenue exceeds 3 mill Euro
Incoatec introduces the new Helios MX Optics for IμS and rotating anodes for protein crystallography

2009 1st Ag-IμS installed at the Institute of Inorganic Chemistry, Göttingen, Germany

2010 Incoatec has more than 30 employees
100th IμS installed at the Fédération Chevreul (CNRS) in Lille, France

2011 Launch of the new microfocus source IμS High-Brilliance

2012 Incoatec celebrates the 10th anniversary
Launch of the scatterfree pinholes SCATEX

2014 Incoatec has about 50 employees
Moving into their new premises

2015 Celebration of the 500th IμS customer at the Institute of Inorganic Chemistry in Goettingen, Germany
